Problem Set 4 Exercise #04: Print Copies

Reference: Lecture 10 notes

Learning objective: Characters and strings

Estimated completion time: 15 minutes

Problem statement:

Write a program **print_copies.c** that prints out duplicated copies of a string entered by user, up to a total of 10 characters in output. You may assume the input string is a single word with length between 1 and 5.

Sample run #1:

```
Enter a string: AB
ABABABABAB
```

Sample run #2:

```
Enter a string: abc
abcabcabc
```
